Pre-Order and Waiting List Notification Module Installation Guide

If you need any assistance in installation please touch base with us on our site or through email. We provide installation services as well if needed. Just fill out the form and let us know that you require us to install this module for you.

Getting Started!

Overview

Preorders PrestaShop module allows your customers to preorder/book out of stock products in advance and subscribe to waitlist. They can subscribe to individual products options like color, size etc.

Features

Preorders PrestaShop module allows you to accept customer orders for your products in advance. The preorder period gives you time to build buzz and get creative with your marketing campaign. By giving incentives on pre-orders, you can capture more customers, more user reviews and get listed in the bestseller lists.

Preorder Products

By using this module, customers can preorder products, pay in advance, and get them subscribed to the waitlist. 'My Waitlist' option is available to customers in their accounts, from where they can manage notifications for products.

Admin can view all the preorders in a grid at the back office. Detailed customer's information is shown in this grid such as customer's name, ID, and email notification information.

Preorder Tab

A new tab, 'FMM Preorder', is created for each product from where admin can configure the following options:

- Allow preorder
- Allow count down

- Configure Date available
- Set the Initial quantity

Order Details

Admin can view all the orders with 'pre-order' status in the orders section. More details can be checked by clicking on any specific order.

Other Features

- Customers can preorder and subscribe to waitlist
- Customers can subscribe to notifications such as product size, color, price etc.
- Customers can manage subscriptions from their accounts
- Waitlist at the backoffice lists all the preorders, where admin can view details like customers name, email, and if the notification has been sent out or not.
- Each product can be enabled for preorder with following options: Allow countdown, data availability, and initial quantity.
- Countdown is displayed on product page that will specify when the product will be available
- Accumulate more sales, get more time to develop a strategic marketing campaign
- Notify button on product page is AJAX based

Installation Instructions

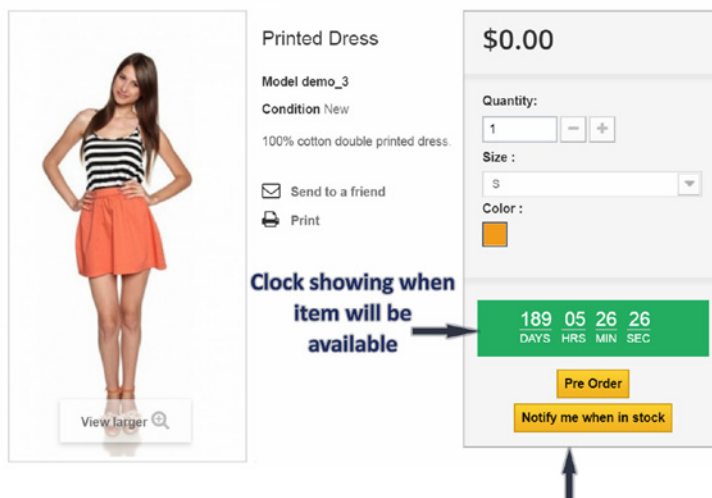

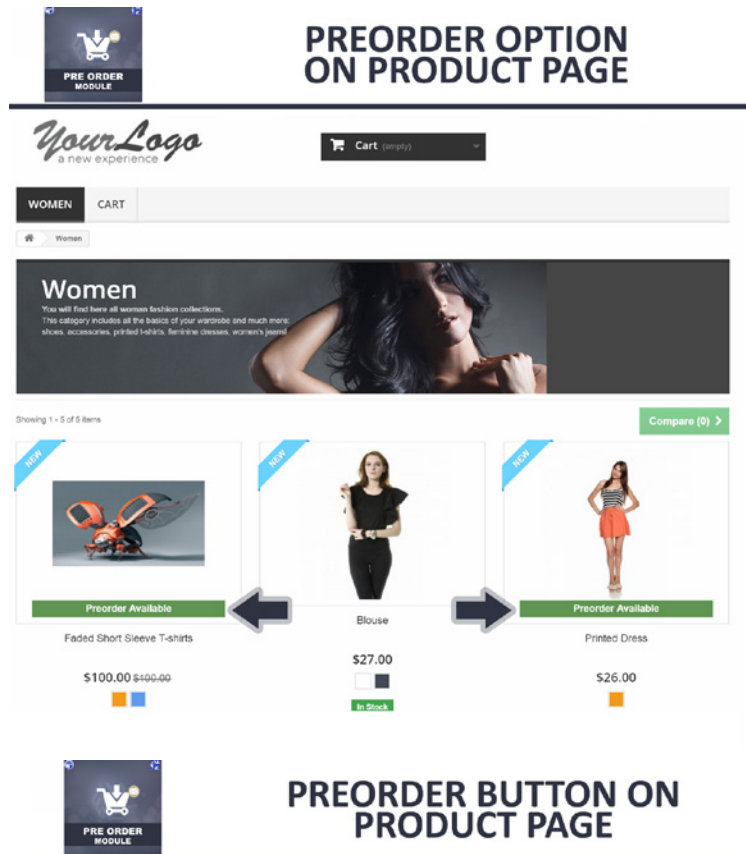

Compatible - PrestaShop 1.5 – 1.7.x

1. Log into PrestaShop administration panel, go to Modules → Click Add new module.
2. Select fmm preorder.zip which you downloaded and click Upload this module.
3. Scroll down and find Pre-Order & Notification and click Install. You are done.
4. Clear Cache in Advance Parameters → Performance.
5. Make sure Cache is disabled in Advance Parameters → Performance.
6. Module will add extra Tab in BO Product edit, also waitlist tab will be added on top or Left menu.

Frontend For Preorder Module

Products that are enabled for preorder are shown on the frontend with 'Preorder Available' label. This option is available on the product page as well along with the 'Notify me when in stock' option, and countdown. Only logged-in customers can subscribe to notifications, whereas they can also subscribe to individual product options like color, size etc.

User Waiting List

Users can view they subscribed products from their accounts:

1. Go to User account by clicking on User Name.
2. Click on "My Waitlist".
3. User can also unsub any product

Waiting List For Admin

Admin can view subscriber users by:

1. Going to "Preorder and Notification".
2. Clicking on "Waiting List".
3. Here admin view the details of all the products for preorder.
4. Clicking on "View" will open the customer detail for that product.

The screenshot displays the FME Admin interface. At the top, there's a 'PRE ORDER MODULE' icon. The main header is 'WAITING LIST'. Below it, a subtitle reads 'Waiting list showing all the subscribed users'. A sidebar on the left contains navigation links: Dashboard, Catalog, Modules, Pre Order and Notification, and Waiting List. The 'Waiting List' section is active, showing a table with columns: #, Product Name, ID Customer, Available, and Date. There are two entries in the table, both for 'Faded Short Sleeve T-shirts'. The first entry is for Size - L, Color - Blue, with ID 8, and the second is for Size - M, Color - Orange, also with ID 8. Both entries have a red 'X' in the 'Available' column and a 'View' button. Below the table, there's a 'CUSTOMER DETAIL' section. It shows the product details for the first entry: 'Faded Short Sleeve T-shirts : Size - L, Color - Blue'. The customer's first name is 'Joe', last name is 'Doe', and email is 'demo@demo.com'. The 'MAIL SENT' column has a red 'X'. At the bottom of the customer detail section, there's a 'Back to List' button and a 'Complete Customer Detail' button. An arrow points from the 'View' button of the first entry in the table to the 'CUSTOMER DETAIL' section.

#	Product Name	ID Customer	Available	Date
